**WIRELESS TELECOMMUNICATIONS BUREAU SEEKS COMMENT ON REQUEST FOR
DECLARATORY RULING BY WIRELESS STRATEGIES, INC. REGARDING COORDINATION
OF MICROWAVE LINKS UNDER PART 101 OF THE COMMISSION'S RULES**

WTB Docket No. 07-121

Comment Date: July 19, 2007

Reply Date: August 20, 2007

On February 23, 2007, Wireless Strategies, Inc. (WSI)¹ filed a request for a declaratory ruling that Part 101 of the Commission's rules permits a licensee to simultaneously coordinate multiple links within a single point-to-point coordination area under certain conditions.² Specifically, WSI asserts that such coordination is permitted if all transmitters within the coordination area collectively comply with the Commission's Part 101 antenna standards and frequency coordination procedures.³ WSI states that this process would allow Part 101 microwave licensees to use spectrum more efficiently.⁴

On March 26, 2007, the Fixed Wireless Communications Coalition (FWCC) filed a letter (FWCC letter) expressing concern that the coordination procedures set forth in the WSI Request could result in significant interference to existing microwave stations. FWCC asks that the Commission either deny the WSI Request or open a rulemaking proceeding to fully explore the proposal. On April 6, 2007, Verizon filed a petition to deny against three pending microwave applications submitted by WSI,⁵ largely challenging the WSI Request.⁶ Verizon's Petition alleges that the process set forth in the WSI Request could cause interference to Verizon's point-to-point microwave facilities.⁷

¹ WSI currently holds licenses for microwave paths in Baltimore, Maryland, in the private operational fixed microwave services under Part 101 of the Commission's rules.

⁶ Petition to Deny or, Alternatively, to Impose Conditions, filed by Verizon (April 6, 2007) (Verizon Petition).

⁷ Verizon Petition at 1, 3-4.

On April 23, 2007, and April 27, 2007, WSI submitted pleadings opposing the filings of FWCC and Verizon, respectively.⁸ WSI claims that the links that are the subject of its pending applications are not encompassed under the coordination process set forth in the WSI Request, and asserts that it will use this coordination process for those sites and others only after the Commission declares that the process is consistent with the Commission's rules. On May 4, 2007, Verizon filed its Reply, reiterating its concern about possible interference caused by the process set forth in the WSI Request.⁹ On June 7, 2007, and June 15, 2007, AirTegrity Wireless, Inc. and Mt. Vernon.Net Inc. filed comments in support of the WSI Request.¹⁰

We will consider the above-mentioned pleadings and *ex parte* communications as part of the record in this Docket, WT 07-121, and will place copies of those filings in the Docket.¹¹ Parties commenting on the WSI Request **must file their comments under the Docket number and DA number** associated with this Public Notice.
